Dear [REDACTED]

Thank you for your follow-up question. You asked:

As a followup, I would like to request any documentation you hold on the modifications you have made to QGIS for your purposes, including configuration changes and custom code that has been written.

I regret that this is information that we do not hold.

The bespoke enhancements were created for us by a private, external organisation - Informed Solutions - who were engaged through an open procurement process. As such, we do not own that data and have no access to any coding or programming.

Kind regards

[REDACTED]
