OFFICIAL-SENSITIVE

Dear [REDACTED]

BCE-FOI-2026-08

Thank you for your email request for information to the Boundary Commission for England (BCE) on 12 July 2026, which has been considered under the terms of the Freedom of Information Act (FOIA) 2000.

In your request for information you asked:

1. Whether any UK government department, MOD unit, MOD research laboratory, subcontracted research organisation, MOD-affiliated university, or police department is conducting research, testing, or operational activity involving electromagnetic, psycho-electric, neurological-interference, or remote neuro-stimulation technologies capable of producing effects similar to the symptoms listed above.
2. If such research or testing exists, please provide:
 - o The name of the programme or project
 - o The responsible department or unit
 - o Any publicly available documentation, safety guidelines, or ethics oversight procedures
 - o Any external regulatory bodies involved in oversight
3. Whether any individuals in the UK have been enrolled, selected, monitored, or observed as part of such research, and if so:
 - o The number of individuals involved
 - o The criteria for selection
 - o Any consent or safeguarding requirements
 - o Whether vulnerable groups (students, migrants, temporary workers) are included
4. Any publicly available patents, technical descriptions, or research documentation held by UK institutions relating to:
 - o electromagnetic stimulation technologies
 - o remote neural interaction systems
 - o psycho-electric or neuro-interference devices
 - o directed-energy research
5. Any internal MOD, policing, or research-institution policies relating to:
 - o human subject protection
 - o non-consensual exposure safeguards
 - o testing limitations
 - o reporting or whistleblowing procedures

Our response:

The Boundary Commission for England carries out regular reviews of Parliamentary constituency boundaries. We hold no information on any part of your request.

Under the provisions of the FOIA, if you are dissatisfied with the response provided you may wish to ask for an internal review. If this situation arises you should write to:

The Acting Secretary
Boundary Commission for England
2 Marsham Street
London
SW1P 4DF

Email: information@boundarycommissionengland.gov.uk

If you are not content with our response following an internal review, you may apply directly to the Information Commissioner for a decision. Generally, the Information Commissioner cannot make a decision unless you have exhausted the complaints procedure provided by the BCE. The Information Commissioner can be contacted at:

The Office of the Information Commissioner
Wycliffe House
Water Lane
Wilmslow
Cheshire
SK9 5AF

Kind regards

Subject: Freedom of Information Request Regarding Research and Miss Use of Psychoelectric wapn,remote Neurol monitoring and Electromagnetic Wapons

You don't often get email from psychoelectricwaponvbkremoteneur@gmail.com.

[Learn why this is important](#)

To the FOI Officer,

I am submitting this request under the **Freedom of Information Act 2000** to obtain clarification about whether any UK government departments, defence organisations, research laboratories, subcontracted institutions, universities, or police units are involved in research, testing, or operational activity related to technologies sometimes described publicly as *psycho-electric*, *electromagnetic*, *remote neural monitoring*, *neurological-interference*, or *directed-energy* systems.

Over several years, I have interviewed more than **300 individuals** from diverse backgrounds who report **highly similar neurological, sensory, and physical symptoms**. These symptoms appear artificial in nature and are consistent across many unrelated people. Because of the scale and consistency of these reports, I am seeking formal clarification from the relevant authorities.

I want to emphasise that **this request does not accuse any organisation of wrongdoing**. It is strictly a request for information under the FOI Act. I am attaching **case studies, publicly available research patents, articles, and videos** that describe technologies some individuals believe may be relevant. These materials are provided only for context.

Summary of Reported Symptoms

Cognitive / Mental

- Forced memory blanking
- Induced erroneous actions
- Perceived reading or broadcasting of thoughts
- Controlled dreams
- Forced waking visions, sometimes synchronised with body motion

Auditory / Sensory

- Sudden changes in hearing (direction, volume, or content)
- "Microwave hearing" sensations
- "Transparent eyelids" (seeing shapes through closed eyes)
- Artificial tinnitus

Physical Sensations

- Sudden violent itching inside eyelids
- Remotely induced itching without rash
- Needle-like pains

Motor / Bodily Control

- Forced manipulation of airways
- Perceived externally controlled speech
- Forced jaw movement or teeth clacking
- Forced nudging of arms during delicate work
- Forced precision manipulation of hands
- Forced muscle quaking in back muscles

Cardiovascular / Bodily Responses

- Rapid heart rate without cause

Sensitive Areas

- Itching in genital areas
- Forced sexual arousal
- Intense pain in sensitive regions

FOI Questions

Under the Freedom of Information Act, I respectfully request the following information:

1. **Whether any UK government department, MOD unit, MOD research laboratory, subcontracted research organisation, MOD-affiliated university, or police department is conducting research, testing, or operational activity involving electromagnetic, psycho-electric, neurological-interference, or remote neuro-stimulation technologies capable of producing effects similar to the symptoms listed above.**
2. **If such research or testing exists, please provide:**
 - The name of the programme or project
 - The responsible department or unit
 - Any publicly available documentation, safety guidelines, or ethics oversight procedures
 - Any external regulatory bodies involved in oversight
3. **Whether any individuals in the UK have been enrolled, selected, monitored, or observed as part of such research, and if so:**
 - The number of individuals involved
 - The criteria for selection
 - Any consent or safeguarding requirements
 - Whether vulnerable groups (students, migrants, temporary workers) are included
4. **Any publicly available patents, technical descriptions, or research documentation** held by UK institutions relating to:
 - electromagnetic stimulation technologies
 - remote neural interaction systems
 - psycho-electric or neuro-interference devices
 - directed-energy research
5. **Any internal MOD, policing, or research-institution policies** relating to:
 - human subject protection
 - non-consensual exposure safeguards
 - testing limitations
 - reporting or whistleblowing procedures

Response Format

Please provide the requested information in electronic format (PDF or email text). And Keep in your department website .

Thank you for your attention. I look forward to your response within the statutory FOI timeframe.

Sincerely,

[REDACTED]
